**Precautionary Statements**

**General**

- P101: If medical advice is needed, have product container or label at hand.
- P102: Keep out of reach of children.
- P103: Read label before use.

**Response**

- P301+P312+P330: IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.
- P303+P352: IF ON SKIN: Wash with plenty of water.
- P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P310: Immediately call a POISON CENTER/doctor.
- P370+P378: In case of fire: Use water to extinguish.

**Prevention**

- P221: Take any precautions to avoid mixing with combustibles.
- P264: Wash skin thoroughly after handling.
- P270: Do not eat, drink or smoke when using this product.
- P280: Wear protective gloves, clothing, eye protection, face protection.

**Storage / Disposal**

- P420: Store away from incompatible materials.
- P501: Dispose of contents/container in accordance with local/regional/national/international regulations.

**Section 3: Composition / Information on Ingredients**

<table>

</table>

**Section 4: First-Aid Measures**

**Eye Contact:**

- Hold eye(s) open and rinse cautiously with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye(s). Call a poison control center or doctor for treatment advice.

**Skin Contact:**

- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice if irritation persists.

**Ingestion:**

- Call poison control center or doctor immediately for treatment advice. Rinse mouth with water. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Inhalation:**

- Move person to fresh air. If person is not breathing, call 911. Call poison control center or doctor for treatment advice.

**Notes to Physician:**

- Material is corrosive and probable mucosal damage may contraindicate the use of gastric lavage.
SAFETY DATA SHEET (SDS)

GCPRO® Oxidizer Treatment

Section 5: Fire-Fighting Measures

- Suitable Extinguishing Media: Water or water spray.
- Unsuitable Extinguishing Media: None.
- Combustion Products: Carbon monoxide, carbon dioxide, oxygen.
- Unusual Fire and Explosion Hazards: Oxidizing substance, exothermic decomposition releases oxygen, may support combustion.
- Protective Equipment for Firefighters: Full chemical protection suits and boots (rubber or PVC) and self-contained breathing apparatus. Cordon the area to keep out all unnecessary personnel. Keep upwind. Use large quantities of water spray to fight fire. Cool containers / tanks with water spray. If safe to do, move product away from fire to secure area. Eliminate all possible sources of ignition and remove flammable material.

Section 6: Accidental Release Measures

- Personal Precautions: Work to prevent dust cloud formation. No open flames in area. Wear protective clothing and glasses.
- Emergency Procedures: Ensure clean-up is conducted by trained personnel. Personnel should wear appropriate protective equipment. Remove all sources of ignition. If facing concentrations above exposure limits personnel shall wear certified respirators.
- Environmental Precautions: Prevent undiluted spillage from entering sewers, basements or watercourses. Sweep up to prevent slipping hazards. After removing material, clean affected area/surfaces with an excess of water.
- Methods and Material for Containment and Clean-Up: Place spilled material into a suitable container using protective clothing, avoid dust cloud formation. After removing material, clean affected area/surfaces with an excess of water.
- Incompatible Materials: Oxidizing agents (strong acids/bases), metals, organic materials, water/moisture.
- Compatible Materials: Stainless Steel, Polyethylene, Paper with PE coating.

Section 7: Handling and Storage

- Storage: Keep container closed tightly in storage. Store at temperatures less than 40°C (104°F). Store in a dry location and out of direct sunlight. Store separately from incompatible materials. Store at temperatures less than 40°C (104°F).
- Incompatible Materials: Oxidizing agents (strong acids/bases), metals, organic materials, water/moisture.

Section 8: Exposure Controls / Personal Protection

- Components with Workplace Control Parameters

</tbody>
</table>

- Engineering Controls: Avoid raising dust, Keep away from flames/heat. General room ventilation is required, maintain adequate ventilation. Emergency eye wash station should be in close proximity.
- General Hygienic Practices: Do not eat, drink or smoke during use. Wash hands with soap and water after use.
- Personal Protective Equipment
  - Respiratory Protection: For most conditions, no respiratory protection should be needed. For excessive dust condition: dust mask or NIOSH approved particulate respirator.
  - Eye/Face Protection: Chemical goggles or face shield.
  - Hand Protection: Chemical resistant gloves.
  - Skin/Body Protection: Wear suitable protective clothing. Apron and boots made of butyl rubber for high risk exposure.

Section 9: Physical and Chemical Properties

- Appearance: White, granular solid.
- Odor: Odorless.
- Odor Threshold: NA
- pH: 10.4 – 10.6 in 3% solution.
- Specific Gravity: 0.9 – 1.2 g/cm³
- Melting Point: NA
- Freezing Point: NA
- Boiling Point: NA
- Flammability Limits: NA
- Vapor Pressure: NA
- Vapor Density: NA
- Solubility: 140 g/L at 20°C (68°F)
- Auto-Ignition Temperature: NA
- Decomposition Temperature: SADT > 55°C (131°F)
- Relative Density: 950-1200 kg/m³
- Partition Coefficient n-octanol / water: NA
- Viscosity: NA

Section 10: Stability and Reactivity

- Reactivity: Decomposes when moist or when heated. Potential for exothermic hazard.
- Stability: Stable under recommended storage conditions.
- Conditions to Avoid: Heat/heat sources and moisture.
- Hazardous Decomposition Products: Thermal decomposition generates carbon dioxide and oxygen which supports combustion.

Persistence and Degradability: Biodegrades rapidly into water and oxygen.

Bioaccumulative Potential: Does not bioaccumulate.

Mobility in Soil: Non-significant adsorption in soil.

Results of PBT & vPvB: This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).

Other Adverse Effects: None known.

Section 13: Disposal Considerations

Waste from Residues and Unused Product: Dispose of waste material in accordance with all local, regional, national, provincial, territorial and international regulations.

Contaminated Container Disposal: Do not reuse or refill containers. Triple rinse empty containers with clean water. Clean and empty containers should be taken to an approved waste handling site for recycling or disposal.
